Announcements:

Our three houses (The Owls, The Foxes and The Oaks) compete each week to see which house has the greatest number of children with 100% attendance *and* zero lates. The Foxes had 26 children with 100% attendance and zero lates, the Oaks had 32 children with 100% attendance and zero lates but the Owls are this week's winning house. The Owls had 34 children with 100% attendance and zero lates. Congratulations to the following children who will all receive a commendation for their excellent start to the school year.

Write your full name: Class:

Hard (H7)

I was given a 1500-piece jigsaw of Albert Einstein. Half of the pieces are missing and half of the rest are damaged. How many good pieces are there?

- A 0 B 350 C 375 D 500 E 750

Puzzling (P19)

Two people start running around an obstacle course. One takes six minutes to do one lap, the other eight minutes. How many times will the slower person go around the course before meeting up with the faster one?

- A 3 B 4 C 6 D 8 E 24

Very Challenging (V8)

A number that is equal to the sum of its factors apart from itself is called a perfect number. For example, the factors of 6 are 1,2,3 and 6 and 1 + 2 + 3 = 6 so 6 is a perfect number. Which of these is a perfect number?
